

# BILGIN YACHTS

**03/09/2019, Istanbul**

## **LILIUM IN THE ECPY OPEN DAY**

European Committee for Professional Yachting (ECPY) will come together on 4<sup>th</sup> September 2019 before the boat show's season takes a start. In the event that will be held in Port de Nice – Quai Amiral Infernet, brokers will have the opportunity to see the megayachts in advance.

Following this event, the 47.5 meter Lilium will get ready for the Cannes Yachting Show on 10-15 September and continue her way to Monaco Yacht Show on 25-28 September 2019. During Cannes Yachting Show, the yacht will be exhibited on Port Canto Zone 1.

Launched in April 2019, Lilium is a stunning representative of the 47.5 meter motoryacht series of the shipyard following Starburst-III (ex-Nerissa) which was highly acclaimed during her premier in

Monaco Yacht Show of 2017 while Cannes Yachting Show will present a preview of the yacht. Bilgin Yachts will attend the boat shows together with IYC Luxury Yacht Sales & Charter as this is arranged with a contract.

Lilium is named after the beautiful white flower as its interior has light colors that highlight the modern lines of the yacht. She has slight differences than her sistership Nerissa. Besides having bright colors in the living areas, Lilium's main difference from her sistership Nerissa is certainly her galley. The layout changed in order to make it easy for the crew to move around without coming across with the guests. There is a pantry located between the galley and the living room. The galley's one of the significant feature is its island. This way, the crew will work more productively, particularly when there is an invitation on the yacht.

The interior spaces ensures the best comfort while not compromising from functionality and the joy of sailing. The color palette mostly includes white and golden touches. Brass helps to create the warm atmosphere as a material. The lighting also enhances the relaxing atmosphere in the interior. The staircase reflects the daylight from the above jakuzzi, while the specially designed lights are the

result of the inspiration from nature. One owner's cabin as well as four guest cabins have special design features such as the headboards and lighting, while the marble in the bathroom of each cabin breaks the monochromatism and adds luxury feeling to the area.

Lilium is powered by twin 1,475hp MTU 12V2000 M72 diesel engines and reaches till the top speed of 16 knots and a maximum range in excess of 4,000 nautical miles at her cruising speed of 12 knots. In order to reserve your place to see Lilium, please get in touch with Yıldırim Bilgen, the Sales Director of Bilgin Yachts, who will be on board until the end of October 2019. You can find his contact details written below this press release.

Alongside this 48-metre yacht, Bilgin Yachts has currently built three units of the 80-metre Bilgin 263 series. The first hull of Bilgin 263 will be available for delivery in the first half of 2020, while the second hull is planned to be launched towards the end of the year. The third unit of the series is being produced alongside of the shipyard's 85-meter superyacht which up to date.

## **BRIEF TECHNICAL SPECIFICATIONS**

Hull configuration: Displacement  
Hull material: Steel  
S/Structure material: Aluminium  
LOA: 47.50m  
LWL at full load: 41.58m  
B.max: 8.75m  
Draught at full load: 2.5m  
Displacement at full load: 446t  
Fuel capacity: 66,800lt  
Water capacity: 11,600lt  
Main engines: 2x1148hp MTU 12V 2000 M72  
Maximum speed: 16

## **ABOUT BILGIN YACHTS**

Bilgin Yachts is a boutique shipyard in Istanbul area, building bespoke 40 to 100 meter luxury superyachts. It has been a family-run business for five generations since the early 1900s. With its 300+ highly-skilled craftsmen, who contribute to the 90% of the work in-house, the shipyard operates in facilities covering 59,500m<sup>2</sup> that include a state-of-the-art marine furniture factory, a comprehensive machine shop and a stainless-steel workshop. Since the spring of 2017, the company has expanded further with additional 10,000m<sup>2</sup> areas outfitting sheds and headquarters located in West Istanbul Marina, just 20 minutes away from Istanbul Ataturk Airport.
