

BILGIN YACHTS

FOR IMMEDIATE RELEASE

Interior Splendor of Bilgin's Project Ame Unveiled

Istanbul, Turkiye- August, 2023

The highly anticipated moment has arrived as Bilgin Yachts proudly presents the long-awaited interior images of Project Ame. This unveiling marks a significant milestone in the journey of this remarkable vessel, showcasing an unparalleled fusion of design prowess, engineering excellence, and maritime luxury. The yacht boasts exterior design and naval architecture by Unique Yacht Design and interior design by Hot Lab.

Frank Grzeszczak Jr., Vice President & Sales Broker of FGI Yacht Group, played an instrumental role in shaping the vision for Project Ame. Alongside Berkay Yılmaz, the Commercial Director of Bilgin Yachts, and Enrico Lumini, Partner and Head of Design at Hot Lab, extensive deliberations were conducted in the heart of Milan to craft every aspect of this project. Their collective creative brilliance and unwavering commitment have resulted in an interior that harmoniously blends timeless elegance with contemporary design sensibilities.

According to Lumini, The Bilgin NB-82 is an elegant, timeless vessel, with a perfect combination of smooth surfaces and many materials which treat similar colours in different ways. She is a very well studied and welcoming yacht. The interior mood board is based on few natural colours which include the entire range of sand, cream, light grey and off-white elements. It is characterized by a modern look, rich in textures and reflective elements which at the same time enlarge the space and give the real feeling of an ultra high-end product. Complex, yet perfectly homogeneous it looks well balanced, greatly designed and never ostentatious. Modern materials, such as 3D massive woods, metal-mesh laminated glasses, chromed stainless steel elements, rich carpets and fabrics directly coming from the rich Italian textile heritage create relaxing interiors in which every guest will really perceive the dedication and professionalism which the project was first of all designed with and then the skill which it was built with.

The interior images of Project Ame reveal an oasis of sophistication, featuring sumptuous living spaces, avant-garde amenities, and meticulous attention to detail. The blend of handcrafted materials, innovative technology, and bespoke furnishings creates an atmosphere that is both inviting and awe-

inspiring. The yacht is a perfect mixture of design, craftsmanship and attention to every detail, is equipped with twin 1,450 CAT engines, providing a top speed of around 16.5 knots at a low cost. With the successful sale of the second unit of the Bilgin 163, Bilgin Yachts continues to lead the way in the superyacht industry.

BRIEF TECHNICAL SPECIFICATIONS

Hull configuration: Displacement

Hull material: Steel

S/Structure material: Aluminium

LOA: 49.95m

LWL at full load: 48.26m

Beam overall: 9.25m

Draught at full load: 2.60m

Displacement at full load: 495t (full load)

Gross tonnage: 499gt

Fuel capacity: 55,000lt

Water capacity: 11,000lt

Main engines: CAT C32

Engines power: 2x1,081 kW @ 2,150 RPM

Maximum speed: 16.5

Cruising speed: 12

Range at cruising speed at half load: app. 5,000 miles

Exterior Design: Unique Yacht Design

Naval Architect: Unique Yacht Design

Interior Design: Hot Lab

Builder: Bilgin Yachts

ABOUT BILGIN YACHTS

Bilgin Yachts is a boutique shipyard at the European side of Istanbul, building bespoke 50 to 120-meter luxury superyachts. It has been a family-run business for five generations since the early 1900s. With its 500+ highly-skilled craftsmen, performing 90% of the work in-house, the shipyard operates in five facilities covering more than 60,000sqm. Currently in Yalova, the builder is able to accommodate five projects (two units of 85-120m yachts and three units of 50-65m yachts) and in Istanbul, the outfitting capacity is five projects (three units of 70-90m yachts and two units of 50-65m yachts) simultaneously. In the summer of 2023, with the launch of the new 42 series, Bilgin announced the facility in Antalya Free Zone. Bilgin facilities also comprises manufacturing areas, a state-of-the-art marine furniture factory, a comprehensive mechanic, hydraulic, stainless-steel and upholstery workshop, all of which work closely until a project is ready for launch. Headquarters located in the West Istanbul Marina, which is approximately 40 minutes from the Istanbul Airport, Bilgin provides high-quality yachts to its customers.
