

BILGIN YACHTS

Turkish Craftsmanship Shines at Monaco Yacht Show 2023 with Bilgin Yachts

Istanbul, October 10, 2023 – Monaco Yacht Show 2023 has witnessed an unforgettable showcase of nautical excellence as Bilgin Yachts proudly unveiled two remarkable vessels that left an indelible mark on the event. The Turkish shipyard, known for its commitment to craftsmanship, innovation, and sustainability, presented the 80-meter Leona and the 42-meter Kaşif to the visitors.

80m Leona: Royalty Takes Notice

Leona, the 80-meter superyacht, proved to be the unequivocal star of the show. Her spectacular nature and striking appearance, with a red hull and white superstructure, captured the imagination of all who stepped aboard. Notably, Prince Albert of Monaco himself spent over an hour exploring this exceptional vessel, underscoring her regal appeal.

Berkay Yılmaz, Commercial Director at Bilgin Yachts, commented on Leona's eye-catching presence, stating, “She’s a very unique yacht, with a red hull color and white superstructure. She is a stand-out vessel here at the show, the largest yacht with a red hull in the port.”

42m Kaşif: A Bold Exploration

Kaşif, the 42-meter explorer yacht, launched earlier this summer, redefined the explorer yacht concept and marked a pivotal moment for Bilgin Yachts. Built in the company's new Antalya facility, Kaşif exhibits a distinctive exterior styling characterized by aggressive, sporty, and elegant lines, departing from the traditional bulky explorer yacht design.
