FOR IMMEDIATE RELEASE

VIDEO: BILGIN CELEBRATES THE LAUNCH OF 52-METER NB83

Antalya, Turkiye – December 2025 - Bilgin Yachts is proud to conclude a landmark year with the successful launch of NB83, the latest masterpiece in the prestigious 52-meter Bilgin 170 series. This final milestone of 2025, captured in a newly released cinematic video in Antalya, showcases the seamless blend of “Made in Türkiye” craftsmanship and the advanced engineering that has become the hallmark of the shipyard’s five-generation heritage.

The NB83 represents a bold evolution of Bilgin’s semi-custom platform, artfully balancing a sleek, aggressive profile with the expansive interior volumes typically found in much larger vessels. Developed by Unique Yacht Design, the yacht’s exterior is characterized by modern, sexy lines and a sub-500 GT platform that maximizes the transition between luxury indoor and outdoor living. This “production-driven” design philosophy ensures that every technical detail, from the optimized displacement hull to the oversized gangway and forward anchor observation pockets, provides the owner with unparalleled comfort and a 5,000-mile cruising range.

The interior of NB83, envisioned by the renowned Hot Lab studio, perfectly complements the striking exterior with a sophisticated atmosphere defined by layered textures and a timeless 'modern luxury' palette. Despite remaining within the 499 GT threshold, the Bilgin 170 platform offers approximately 20% more usable volume than typical yachts in the 48-meter range, allowing for expansive social areas and seamless indoor-outdoor living. This intelligent use of space comfortably accommodates up to 12 guests, highlighted by a generous bridge-deck owner’s suite and vast outdoor decks designed for effortless relaxation and world-class entertainment.

ABOUT BILGIN YACHTS

Bilgin Yachts is a boutique shipyard with a headquarter located on the European side of Istanbul, building bespoke 50 to 120-meter luxury superyachts. It has been a family-run business for five generations since the early 1900s. With its 900 highly-skilled craftsmen performing 90% of the work in-house, the shipyard operates in four facilities covering more than 79,450sqm. In Yalova, the builder is able to accommodate five projects (two units of 85-120m and three units of 50-65m), while in Istanbul, the outfitting capacity allows for five simultaneous projects (three units of 70-90m and two units of 50-65m). Bilgin's infrastructure also includes a state-of-the-art marine furniture factory and comprehensive workshops for mechanics, hydraulics, stainless steel, and upholstery. Furthermore, the Antalya Shipyard - Outfitting & Production Facility in the Antalya Free Zone spans 4,950 square meters. This dedicated facility provides specialized

services for outfitting, refits, after-sales care, and wintering, ensuring each yacht receives meticulous attention throughout its entire lifecycle. Headquartered at West Istanbul Marina, Bilgin Yachts continues to provide high-quality vessels to an international clientele.
