

BILGIN YACHTS

FOR IMMEDIATE PRESS RELEASE

M/Y TAMASHA SET FOR DELIVERY AHEAD OF HER AEGEAN VOYAGE

Istanbul, Türkiye - May, 2026 - Bilgin Yachts is delighted to announce a significant milestone for the first unit of its innovative 52-meter series: **M/Y Tamasha**, launched spectacularly in October 2025, is now delivered to the client in the first week of May.

Following her delivery, Tamasha is prepared to begin her maiden season. She is expected to spend the coming months cruising across the Mediterranean, a schedule that perfectly highlights her readiness for extended travel and a lifestyle centered on leisure, comfort, and a deep connection to the sea.

Tamasha represents a bold evolution in design, born from a creative synergy between the shipyard and the yacht owner. The vessel's powerful naval architecture and striking exterior are the work of **Unique Yacht Design**, featuring a bolder bow and a sporty, athletic silhouette. Her interiors, masterfully conceived by **Hot Lab**, are a sanctuary of contemporary elegance, where expansive volumes and natural light create a timeless atmosphere of sophisticated comfort.

The yacht introduces a distinctive aesthetic, highlighted by a unique light brown hull, a first for the shipyard. **Emrecañ Özgün of Unique Yacht Design** commented on the bespoke philosophy: "The vision for Tamasha was to create a yacht that is both a personal statement and a social hub. Her distinctive light brown hull was chosen to create a stunning, organic harmony with the water. Every line and space was designed in direct response to the owner's lifestyle, prioritizing expansive areas for entertainment and socializing, and ensuring that life onboard is intimately connected to the sea."

Nikolay Kondratiev, the owner's representative, stated: "This was one of the best projects in my life in terms of cooperation with the yard's team. A high level of proficiency and responsibility of

workers, supported by a great corporate working culture and reliable top management, allowed us to deliver the client the best yacht Bilgin has ever built on their fifty-meter platform.”

Last but not least, the yacht’s steel hull and aluminum superstructure provide a foundation of strength and performance, while her design philosophy centers on a lifestyle-driven experience. With seamless transitions between her vast indoor and outdoor social areas, M/Y Tamasha is engineered for both intimate relaxation and grand entertaining. Indeed, she was specifically designed as both a "personal statement and a social hub," prioritizing expansive areas for entertainment and socialising in direct response to the owner's lifestyle.

The launch and delivery of M/Y Tamasha marks only the beginning of a new period of growth for Bilgin Yachts. Following Tamasha (NB82), exceptional market interest in the 52-meter Bilgin 170 series continues, with the order book reaching a total of seven yachts. The details of these upcoming projects will be announced in the coming period.

BRIEF TECHNICAL SPECIFICATIONS

ABOUT BILGIN YACHTS

Bilgin Yachts is a boutique shipyard at the European side of Istanbul, building bespoke 50 to 120-meter luxury superyachts. It has been a family-run business for five generations since the early 1900s. With its 1000+ highly-skilled craftsmen, performing 90% of the work in-house, the shipyard operates in five facilities covering more than 79,450sqm. The shipyard facilities also comprises manufacturing areas, a state-of-the-art marine furniture factory, a comprehensive mechanic, hydraulic, stainless-steel and upholstery workshop, all of which work closely until a project is ready for launch. Headquarters located in the West Istanbul Marina, which is approximately 40 minutes from the Istanbul Airport, Bilgin provides high-quality yachts to its customers.
