

Dear friends and collaborations,

We are proud to announce the nomination of the exceptional explorer yacht “Kaşif” in the upcoming 19th edition of the World Superyacht Awards. Competing in the category “Displacement Motor Yachts below 500GT, 40m to 44.9m,” Kaşif stands out as a testament to Bilgin Yacht's commitment to innovation in the yachting industry. Built in Bilgin's advanced facility within the prestigious Antalya Free Zone, the yacht epitomizes the brand's ethos of boundary-pushing craftsmanship.

The visionary exterior, crafted by Emrecaan Özgün of Unique Yacht Design, enhances Kaşif's striking profile and stellar performance. “Kaşif is designed to navigate the toughest conditions with ease while providing unparalleled comfort,” states Özgün. Internally, the yacht's design narrative, envisioned by Enrico Lumini of Hot Lab, Italy, unfolds a story of meticulous collaboration and artistic endeavor. “Kaşif is a modern yet timeless aesthetic, seamlessly blending contemporary geometries with elements reflecting the owners' passions,” Lumini explains. The yacht's living areas showcases a sophisticated blend of contemporary design and personal elements, with varying palettes and themes across its decks, ensuring elegance and comfort.
